STRONGEST SINGLE PREDICTOR

DEPARTMENT & OVERTIME ANALYSIS

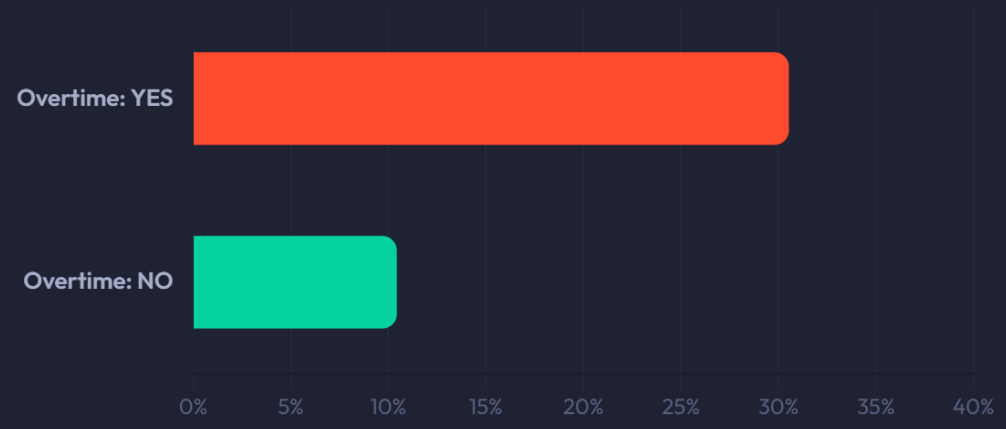
Attrition Rate by Department

Sales leads with 20.6% — nearly 1.5× higher than R&D

Overtime vs Non-Overtime Attrition

Employees on overtime leave at 3× the rate of others

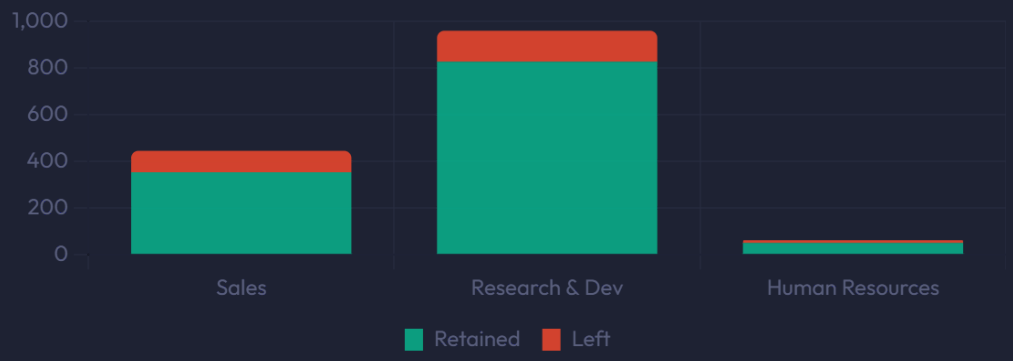
Key Finding: Sales has the highest attrition (20.6%) driven by overtime + pay gaps. Human Resources follows at 19.0% due to promotion stagnation. R&D is healthiest at 13.8% but still above benchmark.



Key Finding: Overtime is the #1 predictor of attrition. 30.5% of overtime employees leave vs just 10.4% without overtime. Capping OT hours is the fastest retention lever.

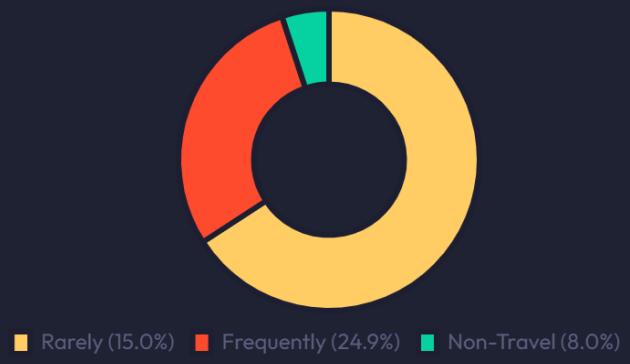
Headcount — Retained vs Left by Department

Absolute numbers show R&D loses most people (133) despite lower rate



Attrition by Business Travel Frequency

Frequent travelers show 3× higher attrition than non-travelers



Attrition by Job Level

Junior roles (Level 1–2) suffer most — limited growth path

Attrition by Work-Life Balance Score

Score of 1 (Bad) shows dramatically higher attrition
